ABOUT THE PRODUCT

PERMACOLOR Grout offers the maximum performance available in a cement-based grout, providing consistent colour and antimicrobial protection to resist stain-causing mould and mildew. PERMACOLOR Grout is easy to install – just mix with water. PERMACOLOR Grout is ideal for floors and walls in both interior and exterior installations. When you must use a cement-based grout, choose PERMACOLOR Grout.

Conditions apply. Only at participating LATICRETE stockists. Check with your local stockist for the expiry date for this promotion.
